Cold Food Storage Chart

Follow the guidelines below for storing food in the refrigerator and freezer. The short time limits for home-refrigerated foods will help keep them from spoiling or becoming dangerous to eat. The guidelines for freezer storage are for quality only—frozen foods stored continuously at 0°F (-18°C) or below can be kept indefinitely.

Looking for a specific item? Check out <u>FoodKeeper</u> to find storage tips for over 650 food and beverages.

Food	Туре	Refrigerator [40°F (4°C) or below]	Freezer [0°F (-18°C) or below]
